Portfolio/

Travis Williams

I see myself as a designer and an application developer skilled at graphical user interfaces. I pride myself with the great ability to teach myself almost anything. My passion in software developing makes it easy for me to put in the extra time and/or effort to get the job done.

Skills

- Python
- C++
- QT
- HTML

- Photoshop
- InDesign
- Embedded Systems

Experience

USAF Center of Balance App

This app provides users a tool to expeditiously calculate the center of balance for equipment with up to 5 axles and a pallet train with up to 10 boxes.

R&H Automotive Website

Simple high quality, organized, streamlined site for an auto repair shop using HTML, CSS and Java Script.

Matrix Keypad

4x4 Matrix keypad connected to microcontroller FRDM-Kl25Z and a seven-segment display.

C++ Tic Tat Toe

Two-player Tic Tac Toe game in C++ using Array from the console.

Education

BA Art & Science / AILA, Los Angeles 4.0 GPA
